

ADIL ALAM

FULL STACK WEB DEVELOPER

Sherghati, Gaya, Bihar, India | +91 9608211167 | adilalam977108@gmail.com
github.com/adil332 | adil3322.github.io/portfolio

CAREER OBJECTIVE

Final-year Computer Science student who has spent the last couple of years building web projects on the side, from small utility apps to a full portfolio site. Looking for an entry-level full stack developer role where I can work on real production code, learn from experienced engineers, and keep growing as a developer.

EDUCATION

Bachelor of Technology, Computer Science & Engineering

2023 – 2027

Arya College of Engineering, Jaipur (affiliated to Rajasthan Technical University, Kota) — CGPA: 7.5

Class XII, BSEB

64.4%

Class X, CBSE

60.4%

INTERNSHIPS

Full Stack Development Intern

Apex Planet

- Built and styled responsive web pages from design mockups, working across both the frontend and basic backend logic.
- Picked up practical experience with Git and GitHub for version control while working alongside the rest of the team.
- Went through existing code to find and fix issues affecting how pages displayed on different screen sizes.

Frontend Development Intern

Pinnacle Labs

- Converted design layouts into responsive interfaces using HTML, CSS, and JavaScript.
- Worked on cleaning up page load times and fixing layout bugs reported during testing.

Python Intern

YBI Foundation

- Worked through structured Python exercises and assignments to strengthen core programming fundamentals.
- Built a few small standalone Python scripts as part of the internship's practical component.

PROJECTS

Personal Portfolio Website — HTML, CSS, JavaScript, GitHub Pages

Responsive site built to showcase my projects, internships, and certificates in one place — also doubles as the live link I share with recruiters.

Smart QR Digital Card — HTML, CSS, JavaScript

A digital profile card that packs contact details and social links into a single QR code, so someone can scan it once and get everything instead of exchanging a paper card.

Weather Dashboard — HTML, CSS, JavaScript, Weather API

Pulls live weather data for any city a user searches and displays current conditions in a simple, readable layout.

CGPA Calculator — HTML, CSS, JavaScript

A small tool that calculates semester-wise and overall CGPA — built mainly to solve a problem I kept running into myself.

TECHNICAL SKILLS

HTML5 • CSS3 • JavaScript • Python • SQL • PostgreSQL • Git • GitHub • VS Code • Responsive Web Design

CERTIFICATES

Full Stack Development • Frontend Development • Python Programming • PostgreSQL (RDBMS) • SQL • Advanced C++ • Data Structures & Algorithms

SOFT SKILLS

Problem Solving • Communication • Teamwork • Time Management • Adaptability • Quick Learning

LANGUAGES

Hindi • English
